Make : ACO
Model : Semi-automatic floor standing counter pressure filling machine
Year : NEW

STANDARD MACHINE SPECIFICATIONS (All details are for guidance only, and subject to confirmation)

Manually operated machine, suitable for filling glass or plastic bottles with mineral water, carbonated soft drinks, beer and other type of carbonated drinks such as sparkling wine etc. Optimal shape of the filling nozzle prevents flattening or foaming of the liquid.

2, 4 or 6 heads are the standard sizes. Due to its simple operation the machine is ideal for small bottlers. The bottle filling machine can be connected directly to our carbonating equipment. The frame is adjustable according to the required standard bottle sizes from 0,2 litres up to 2,5 litres. For non-standard sizes the bottle filling machine is individually designed on the basis of respective sample. The filling level can be adjusted separately on each nozzle.

The bottle filling machine can be ordered complete with crown type closing device. The insert is changeable to fit non-standard bottles or when changing is required due to wear. The frame of the cap closing device is also adjustable according to the bottle sizes. The machine is made completely of acid proof stainless steel, except the springs and sealing rubbers.

Capacity:

2 head: 100–150 BPH, 4 head: 150–200 BPH, 6 head: 200–300 BPH
