The ACO LAB2 has been designed to provide a cost effective solution to low to medium speed front and back label applications. Rigidly constructed from stainless steel and aluminium the LAB2 is supplied complete with integral 2m conveyor making it ideal for those customers with space restrictions.

The machine is equipped with a non-contact product sensor and optional build back sensor. The user friendly adjustment on the labelling head ensures that the label is applied precisely onto the container. The twin air controlled nip rollers and stepper motor enable consistent and accurate label positioning at speed. Our Siemens enhanced control system incorporates a large touch screen user interface for set-up, operation and diagnostics. The unique, simple to operate software allows for quick change over of up to 500 different products and provides diagnostic data and clear fault conditions.
