Direction: Left to right or right to left – please specify
Capacity: 3000 bottles per hour
Container sizes: TBA
Mains Power req: 1ph, 50 Hz
Compressed air req: 3cfm at 5 bar

The ACO LAB1 has been designed to provide a cost effective solution to low to medium speed wraparound label applications. Rigidly constructed from stainless steel and aluminium the LAB1 is supplied complete with integral 1.5m conveyor making it ideal for those customers with space restrictions.

The machine is equipped with a non-contact product sensor and optional build back sensor. The user friendly adjustment on the labelling head ensures that the label is applied precisely onto the container. The twin air controlled nip rollers and stepper motor enable consistent and accurate label positioning at speed.
